## PROFESSIONAL SUMMARY

Data analyst with a background in computer science, data science, and business, experienced transforming complex data into actionable insights, improving reporting workflows, and supporting cross-functional decision-making. Proficient in SQL, Python, Power BI, Tableau, and Excel, with experience analyzing operational and financial data, optimizing processes, and improving data accessibility and reporting reliability.

## EDUCATION

### Willamette University

Master of Business Administration, Master of Science in Data Science

*Expected August 2026*

- Business and Technology Association President
- Atkinson Student Association Treasurer
- **Relevant coursework:** Data visualization, business analytics, statistics, database systems, financial analysis

### Whitman College

Bachelor of Arts in Computer Science

December 2022

- Whitman Achievement Scholarship

## PROFESSIONAL EXPERIENCE

### Database Manager and Cloud Administrator — *Macfarlane Faletti & Co*

March 2023 - August 2024

- Analyzed database and workflow bottlenecks affecting 150+ weekly client processes, identifying improvements that reduced latency by 20–30%
- Improved data accessibility and reporting reliability across financial and operational workflows, supporting more consistent business reporting and decision-making
- Led migration of legacy systems to modernized data architecture, reducing processing time by approximately 25% and improving business access to critical information
- Created dashboard and reporting outputs that improved visibility into operational and financial workflows
- Resolved 22+ infrastructure and data issues, maintaining uptime, reporting continuity, and business data access

### Operations Analyst — *Marion Berries Baseball Club*

April 2025 - August 2025

- Analyzed fan engagement and event data to identify trends, support decisions, and improve user experience
- Improved ticketing and event workflows via process analysis, reducing inefficiencies and increasing speed by 15%
- Monitored attendance and event outcomes to help identify which promotions and activities drove stronger engagement

### Software Developer — *LA Dodgers*

August 2022 - January 2023

- Developed a Python analytics platform evaluating 100+ variables for player assessment and decision-making
- Partnered with end users to gather requirements, improve analysis workflows, and reduce manual work through stronger data organization and reporting
- Improved consistency of evaluation outputs by supporting more structured data inputs and analysis workflows

### Services Engineer Intern — *Lanspeed*

June 2021 - August 2021

- Supported client operations for 50+ clients, reducing downtime through proactive issue resolution
- Executed 30+ server backups, maintaining reliable access to systems and business data
- Communicated technical issues and updates clearly to clients, helping support smoother day-to-day operations

## LEADERSHIP & COMMUNITY ENGAGEMENT

### Angel Fund Investment Analyst — *Willamette Angel Fund / OVF Angel Fund*

August 2025 - Present

- Evaluated early-stage startups through market and financial analysis to support investment decisions
- Conducted due diligence on growth, business models, and financial considerations, presenting structured recommendations

### Resident Assistant, *Whitman College*

August 2021 - December 2022

- Managed operations and conflict resolution for 130 residents, strengthening leadership and stakeholder management skills

## SKILLS

SQL, Python, Power BI, Tableau, Excel, R | Data Visualization, Dashboarding, Reporting, ETL, Stakeholder Management
